

## LAI'D UP 3 MONTHS WITH AN ULCER

On Ankle—It Was Very Bad and Only Got Worse Under Treatments—Cuticura Soon Healed It—Baby's Head Freed from Stubborn Scurf by Cuticura Soap.

## TWO ECONOMICAL CURES BY CUTICURA REMEDIES

"My case was a very bad ulcer sore on my ankle and I was laid up three months with it. I was reading an advertisement in the newspaper one day about the Cuticura Remedies so I purchased a cake of Cuticura Soap and one box of Cuticura Ointment and a large bottle of Cuticura Resolvent. After using one cake of Cuticura Soap and one box of Cuticura Ointment my ulcer was healed, by washing twice a day with the Soap and using the other remedies as directed. Before I used the Cuticura Remedies my sore was getting worse all the time under other treatments. Furthermore we have a baby boy here and we have found that Cuticura Soap has been a fine thing for him. He had scurf on his head and we tried every way to remove it but failed until we used the Cuticura Soap which removed it almost at once. George M. Hall, Brushton, N. Y., Dec. 24, 1908."

## CURED FALLING HAIR

"Some months ago I suffered with a bad form of scalp disease. My hair was falling out and my head itched. I read about Cuticura and determined to try it. I bought a cake of Cuticura Soap and one box of Cuticura Ointment and used them. I continued using the Cuticura Ointment on my head daily and the results were truly wonderful. I still use it occasionally and I always have Cuticura Soap on hand. The cure is complete. Mrs. Amy Geisler, 2018 South Seventh St., Omaha, Neb., Sept. 23 and Oct. 8, 1908."

## NO LAW AT PRESENT BUT THERE WILL BE ONE

For the Establishment of Game Preserve in Santa Catalinas.

Washington, D. C., July 9.—(Special.)—The secretary of the interior has notified Delegate Cameron that the department is without authority of law to grant the request for the creation of a game preserve in the Santa Catalina mountains.

Mr. Cameron will introduce a bill in the house to establish one.

LATEST PICTURES—The Water Users' association has received a set of the latest pictures of the Roosevelt dam, showing the work practically up to date, including the settling basin above the penstock and the big waterfall at the low place in the dam.

## THE BIRTHDAY GIFT OF ROCKEFELLER

Contributed by Appreciative Users of Gasoline.

Cleveland, O., July 9.—Returning home from Jersey City today Mr. Rockefeller announced that he had received a trifling birthday present while absent. The gift was a check for \$1,440,000, representing his share of the profits of Standard Oil, the meeting of the parent organization being held yesterday there. The meeting, which caused Rockefeller to break his custom of remaining quietly at home here on the anniversary of his birth, caused the price of gasoline to raise one cent a gallon.

New York, July 9.—John D. Rockefeller today increased the donations of the general education board by a gift of \$1,000,000. The gift brings Mr. Rockefeller's donations to the educational board up to \$52,000,000.

## THE STATE OF COPPER.

New York, July 9.—The monthly report of the Copper Producers Association issued today follows: Copper stocks on hand July 1, amounting to 454,858,961 pounds, a decrease of 4,999,089 pounds compared with June 1. The production during June, 118,567,493 pounds, a decrease of 1,788,663 pounds compared with May. The consumption in June, 131,557,572 pounds, a decrease 148,595 compared with May.

## FIRE IN GLOBE OF INCENDIARY ORIGIN

Two frame structures were wiped out in Globe Tuesday and for a time it was thought that the whole block was in danger. Several explosions following one another point to intentional setting of fire to the buildings. Immediately following the discovery of the fires, a man was seen to leave the buildings with his clothes in flames. The fire started in the rear of a building used as a mercantile dry goods establishment, run by a Carr Greely. The first notice of the fire was made by a muffled explosion, followed in a few seconds by another and still another one. The explosions resembled those of coal oil or gasoline. From the store where the fire started it soon spread to the adjoining frame building and in no time both buildings were a mass of leaping flames. Both buildings were a total loss.

Many of the witnesses believe that it is a case of arson. "Almost with the second explosion," said Mr. Nielson to a Silver Belt reporter, "I saw a small, dark complexioned man run away from the burning building. He ran past my house and as he passed, I saw that his clothing was on fire. The back of his pants was also burning. I got a good look at him as he passed. I think I would know him if I saw him again. I yelled at him to stop, but he kept on running. He ran up west from my house and disappeared. I was not dressed or I would have followed him. I am sure as I am that I am alive that this man set fire to the store."

Others who were in the vicinity of the fire at the time confirm Mr. Nielson's story in a general way, if not in detail. Hampered by insufficient water pressure, due to a defective fire plug, the fire department handled the fire in excellent shape. The buildings were so

F. D. J. Rice, the well known traveling man for the agents' furnishing house of Greenbaum, Well & Michels of San Francisco, is in town on business this summer. A. L. Peterson is a new member added to the force to help keep up with the increasing business. Mr. Thorne is a great believer in advertising and perhaps that is the reason of his success.

A dance at the Baxter opera house will be given Saturday night. A good time is promised.

The usual services will be held at both the Catholic and Presbyterian churches Sunday.

E. R. Rice left for the Hite camp with a load of supplies.

You can always get a nice fresh smoke at Jones pool room where in Flaggstaff Opposite depot.

Fitz-Mac, the copper expert of Phoenix, who has been here for some time, left for the Kells claims to look into their merits. The claims are located this side of the Vulture.

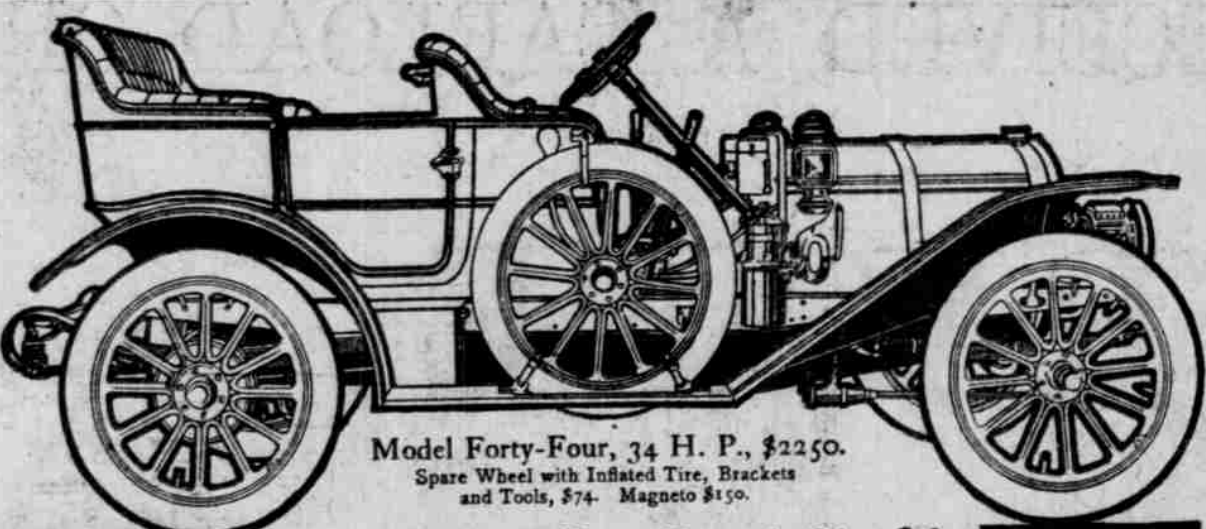

"Thousands of California and Nevada People Play at Santa Cruz—Why Not You?"

IT IS TRUE THAT SANTA CRUZ is California's Most Famous Resort.

It should also be well borne in mind that at no other point on the entire Pacific Coast is it possible to combine the pleasures of the sea-shore with the mountains, every day in the year. Globe trotters say that Santa Cruz and vicinity is without equal as a place for a home. No other place in the world presents exactly the same combinations of attractions.

Santa Cruz is within 3 hours by train and auto of \$99,000 people living in the Bay Cities. Ask about Santa Cruz.

## Why The Offset Crank Shaft?

Notice a man about to mount a bicycle. He always adjusts the pedal where it will receive to best advantage his full weight on the first downward stroke. This position for the pedal is just forward of the center of the crank shaft of the bicycle. If he mounted when the pedal was directly over the center of the crank shaft, his weight would fall directly on the bearings and the first downward stroke would be retarded and therefore weak.

Now imagine the man's leg as the piston of an automobile engine; the pedal of the bicycle as the crank pin and the crank shaft of the bicycle as the crank shaft of the engine. In the ordinary engine the crank pin and piston (the pedal and the man's leg) are directly over the dead center and until the crank passes the turning point

all effort is wasted. Thus when the explosion occurs, the greatest force falls upon the bearings. When the explosion occurs in the Rambler engine the crank pin has moved past the dead center; the crank shaft is in a position to receive the full pressure and turns without friction. There is no side thrust and wear on the cylinder walls is thus saved.

Seven passenger model, 45 horse power, with offset crank shaft, \$2500. Other models \$1150 to \$2500.
